!!! ATTENTION STUDENTS !!!

Here’s a chance to showcase your research in Energy at the 2012 Growing Texas Conference

**Water and Energy in Texas: Solutions from Texas A&M**

*October 3-4, 2012*

*College Station Hilton Hotel & Conference Center*

Hosted by the Texas A&M Energy Institute and TEEX, this conference will highlight the many outstanding research programs at Texas A&M University that explore the challenges and opportunities of conventional and emerging energy technologies that rely upon the use or reuse of water. **Student research will be showcased during the reception where students will exhibit posters and answer questions about their current energy projects.**

**Student Poster Exhibit Guidelines**

Your research topic should focus on ENERGY. We will only exhibit 30 posters, accepted on a first-come first-serve basis until September 21 or when the limit is reached.

- Please notify the Energy Institute about your poster no later than September 21, 2012.
- Register for the conference at [www.growingtexas.tamu.edu](http://www.growingtexas.tamu.edu), preferably by Sept. 21. It is FREE for students, faculty, and staff.
- You are responsible for delivery and pick-up of your poster at the Hilton.
- Your poster must be able to stand on its own on an easel – no exceptions! No poster will be mounted on the wall or anywhere else except upon the provided easel. You may need to purchase a foam core or other type of hardy poster board to support your poster.
- Your poster should include an abstract, introduction, methods, and results/conclusions.
- You are encouraged to attend the entire 1½ day conference, but you must be present during the reception (5-7 pm) to discuss your research and answer questions.

The speaker line-up and panel discussions promise to reveal some highlights of current energy research at Texas A&M. This is a great opportunity to network with other students, faculty, researchers and professionals in your field.

Contact Robyn Pearson (rlpearson@tamu.edu or 979-458-1685) to sign up for this poster exhibit by SEPTEMBER 21, 2012.
